Schedule Your Free Webinar Now To See How PRACTIVET  
Will Improve Quality Of Care For Your Practice.

### PRESENTED BY: JENNY CASSIBRY FISHER, RVT, VTS ONCOLOGY

Jenny Fisher is one of 19 board certified veterinary oncology nurses in the world, with the AIMVT academy. Jenny spent 14 years as the head oncology nurse at LSU Veterinary Teaching Hospital, where she worked in the clinic as a medical and radiation oncology technician. Her teaching credentials include teaching senior veterinary students about chemotherapy safety and administration as well as cytology. She also lectured to veterinary technician students at Delgado University in New Orleans and was the clinical coordinator for the Baton Rouge Community College veterinary technology program. Jenny's lectures cover clinically relevant topics including animal restraint, oncology overview, lymph node cytology, closed system transfer devices, chemotherapy safety, nursing management of acute radiation toxicity and many more. Jenny has spent time at multiple universities and private practices as an oncology consultant for veterinary team professionals and as a relief technician. Jenny was the recipient of the 2008 SUSAN WEEKS NURSING EXCELLENCE AWARD FROM LSU-VTH.
